

WE ARE STEWARDSHIP WARRIORS!

Climate change is a big problem.

Greenhouse gases contribute to climate change.

Everyday, businesses emit CO₂, a greenhouse gas (GHG), by operating, driving, flying and building.

We are doing our part

1

CO₂

We measure our carbon footprint (tonnes of GHG we emit).

2

We reduce the amount of GHG we emit.

3

Carbon Offset

ANWAATIN

We purchase verified Anwaatin carbon offsets to become carbon neutral.

while supporting wealth creation and climate action in Indigenous communities.

The sale of offsets funds Anwaatin's work in Indigenous communities.

Technical Support for Indigenous Smart Energy Projects

Indigenous offsets represent a source of revenue from stewardship activities and knowledge that will help in the fight against climate change.

Advocate and Convene to Ensure Indigenous Communities are Front and Centre in Climate Change Action

Anwaatin advocates for Indigenous territorial rights and stewardship practices to all levels of government.

Financial Support for Indigenous stewards

\$1 from every Anwaatin Offset purchased goes to Indigenous charities and not-for-profits supporting Indigenous stewardship.

Riparian Corridor Enhancements

Solar Project

Land Restoration (Landfill and Quarries)

Sustainable Forest

Sustainable Fish Stock
